PROJECTS

1. E-commerce Domain :

Worked on 10 to 11 E-commerce Live Projects based on MERN Technology.

Implemented E-Commerce Web Applications both Front End and Back End.

Front End is developed using React JS, Html, Css, JavaScript and Css Frameworks with Responsive.

Backend is developed using Node JS.

2. Library Management System :

Library Management System Website that performs various functions like Admin sign up, Admin login, Student Signup, Student login, CRUD operation operated by Admin for Adding, Editing or Deleting a Book and Students can see only Books in library. This application is developed by using Python Django Framework, Django Admin, MYSQL and Bootstrap.
